### **DETAILED ACTION**

Claims 7-30 are pending in this application.

#### ***Action Summary***

1. Examiner noticed a mistake was made of the Office Action Summary (PTO-326) sheet. It read claims 12-22, 28, 30 and 31 as allowed, whereas, it should have read claims 7-31 are rejected.
2. Examiner acknowledges the cancellation of claim 31 and correction of the spelling in claim 30.
3. The rejection of claims 21-27 and 29 under 35 U.S.C. 103(a) over Kovacs et al. is being maintained for the reasons stated in the previous office action.

#### ***Response to Arguments***

4. Applicant's arguments filed September 11, 2001 have been fully considered but they are not persuasive.

Applicants' argue that the prior art teach the processing of the food product following the addition of the iron and prior to administration to the consumer. Examiner respectively disagrees. It is the position of the examiner that the prior art does teach the claimed invention. It is the understanding of the examiner that the prior art does not process the food further after the addition of the iron. Column 2, lines 63-65, discloses adding the iron while the food is still hot for the incorporation of the iron onto the food product. It is not stated that the food is handle any way after that. It is the opinion of the examiner that the food cools and the iron is incorporated thereon.

***Conclusion***

5. Claims 7-30 stands rejected.
